MULTI POINT SURFACE USE & OPERATIONS PLAN

1 Existing Roads

To reach the Barrett Resources well, Ute Tribal 1-34 location, in Section 34-T5S-R4W:

Start in Myton, Utah. Proceed west on US Highway 40, 8.8 miles to the Antelope Creek/Sowers Canyon Road at the Bridgeland turnoff. Turn south and proceed 6.3 miles to the Antelope Creek turnoff. Turn east and proceed south 6.4 miles into the right fork of Antelope Canyon. Take right fork in road and proceed 0.9 miles to Ute Tribal 1-34 access road. Take right fork and proceed 1.8 miles to location.

The existing oilfield service road may need some surface material to prevent or repair holes in the road due to heavy truck traffic during the drilling and completion operation. If repairs are made the operator will secure material from private sources.

Please see the attached map for additional details.

2 Planned Access Road

See Topographic Map "B" for the location of the proposed access road.

3 Location of Existing Wells

See Topographic Map "C" for the location of existing wells within a 1-mile radius.

4 Location of Tank Batteries, Production Facilities and production Gathering and Service Lines

PLEASE REFER TO BARRETT RESOURCES CORPORATION STANDARD OPERATING PROCEDURE (SOP).

Location and Type of Water Supply

Water for the well will be hauled by truck from Petroglyph Operating's Antelope Creek facility. Water for completion will come from the same facility. A water use agreement is also in place with the Ute Tribe.

All lease and/or unit operations will be conducted in such a manner that full compliance is made with all applicable laws, regulations, Onshore Oil and Gas Orders and any applicable Notice to Lessees.

The operator will be fully responsible for the actions of its subcontractors. A complete copy of the approved "Application for Permit to Drill" and the Standard Operating Procedures will be furnished to the field representative(s) to ensure compliance and shall be on location during all construction and drilling operations.

The drilling permit will be valid for a period of one year from the date of approval. After permit termination, a new application will be filed for approval for any future operations.

B) Certification:

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge and belief, true and correct; and that the work associated with the operations proposed herein will be performed by Barrett Resources Corporation and its contractors and subcontractors in conformity with this plan and the terms and conditions under which it is approved. This statement is subject to the provisions of 18 U.S.C. 1001 for the filing of a false statement.

Utah Project # U-00-AY-0244(i)

July 3, 2000

Introduction

An Independent Archaeologist (AIA) was contacted by a representative of Barrett Resources Corporation, to conduct a cultural resources investigation of the proposed Ute Tribal well #1-34 (1109' FNL, 913' FEL), its access and pipeline. The location of the project area is in the NW/NW 1/4 of Section 34, T5S, R4W, Duchesne County, Utah (Figure 1). The proposed access and pipeline parallel each other for 5800 feet (1768.2 m) to the proposed well pad. The proposed access and pipeline begin at a existing oil and gas field service road 500 feet (162.4 m) north of the Uintah-Ouray Ute Reservation and National Forest Boundary. The proposed access and pipeline trend east through the C/S/S 1/2 and then north through the W/E 1/2 of the Section 34 T5S R4W to the proposed well location (Figure 1). The land surface is privately owned and administered by Uintah-Ouray Ute tribe, Fort Duchesne, Utah. total of 36.62 acres was surveyed. Fieldwork was authorized through an access permit issued by the Energy and Minerals Resource Division of the Uintah-Ouray Ute tribe. The field work was conducted on June 20 and 21, 2000 by AIA archaeologist James Truesdale, and accompanied by Lonnie Nephi (technician, Energy and Minerals Resource Division, Uintah-Ouray Ute tribe). All the field notes and maps are located in the AIA office in Laramie, Wyoming.

File Search

A file search was conducted at the Office by the Utah State Historical Society, Antiquities Section, Records Division on May 30, 2000. No projects and/or cultural resources have been previously recorded in or adjacent to the project area.

Environment

Physiographically, the project is located in the Uinta Basin, approximately 25 miles southwest of Myton, Utah. The Uinta Basin is structurally the lowest part of the Colorado Plateau geographical province (Thornbury 1965:425). The terrain is characterized as having steep ridges and/or buttes of Uintah Formation sandstones and clays dissected by seasonal drainages and washes with wide flat alluvial plains. Portions of the desert hardpan and bedrock in the Sowers Canyon/Brundage Canyon area are covered with aeolian sand which may reach a depth of over 1 to 2 meters in areas. The project area is southeast of Sowers Canyon which is the nearest permanent drainage. This drainage trends northeast approximately 8 miles to Antelope Creek and then 10 miles north to the Duchesne River.

Vegetation in the project area is characteristic of a Pinon/Juniper community. Species observed in the project area include; Pinyon pine (Pinus Edulis), juniper (Juniperus Osteosperma), curl-leaf mountain mahogany (Cercocarpus ledifolius), shadscale (Atriplex confertifolia), sand sage, (Artemesia filifolia), saltbush (Atriplex nuttallii), rabbitbrush (Chrysothamnus viscidiflorus), winterfat (Eurotia lanata),

Figure 1. Location of proposed Barrett Ute Tribal #1-34 well, its access and flowline on USGS 7.5' quadrangle maps Duchesne SE (1964) and Anthro Mountain NE (1968).

greasewood (Sarcobatus baileyi), Indian ricegrass (Oryzopsis hymenoides), desert needlegrass (Stipa speciosa), wild buckwheat, Eriogonum ovvalifolium), silky lupine (Lupinus sericeus), desert globemallow (Bromus tectorum), sky rocket (Gilia aggregata), peppergrass (Lepidium perfoliatum), Russian thistle (Salsola kali), and prickly pear cactus (Opuntia spp.).

The immediate proposed Barrett Resources Corp. Ute Tribal #1-34 well is situated on the top and northwest slope of a southwest to northeast trending narrow ridge. Vegetation on the well location is dominated Pinyon/juniper which has a small understory of low sagebrush, bunchgrasses and prickly pear cactus. addition, stands of curl leaf mountain mahogany can be found scattered along the ridge's steep slopes. Sediments on the proposed well location as well as along the proposed access and flowline are shallow (5 cm) silty aeolian sand mixed with eroding Uinta formation sandstones, clay and shales. The ridge surface is dominated by residual angular pieces of Uinta formation sandstone that exhibit a extremely dark desert varnish (patination). proposed access and pipeline parallel each other trending north crossing several small ridges and ephemeral drainages and then continues northeast along the top (crest) of a narrow ridge 5800 feet (1768.2 m) to the proposed well pad. Portions of the proposed access and pipeline follow a newly constructed private road that is is access to a stock pond. The proposed well location is located at an elevation of 6784 feet (2068.3 m) AMSL.

Field Methods

A total of 10 acres was surveyed around the centerstake of the proposed well location to allow for relocation of the pad if necessary. The survey was accomplished by walking transects spaced no more than 15 and 20 meters apart. The well access and pipeline parallel each other. Each of these survey corridors is 5800 feet (1768.2 m) long and 100 feet (30.4 m) wide, 13.31 acres. A total of 26.62 linear acres was surveyed. Areas of subsurface exposure (ant hills, blowouts, eroding slopes and cutbanks) were examined with special care in order to help assess the potential for buried cultural deposits.

Results

A total of 36.62 acres were surveyed for cultural resources within and around the proposed Barrett Resources Corp. Ute Tribal #1-34. No cultural resources were recorded during the survey.

Recommendations

A total of 36.62 acres were surveyed for cultural resources within and around the proposed Barrett Resources Corp. Ute Tribal #1-34. No cultural resources were recorded during the survey. The possibility of buried and intact cultural materials located on the proposed well pad or along its, access and piepline is low. Therefore, no additional archaeological work is necessary and

clearance is recommended for the construction of the proposed Ute Tribal #1-34 well pad, its access and flowline.

APPLICATION FOR GRANT OF CORRIDOR RIGHT-OF-WAY

BARRETT RESOURCES CORPORATION. having a resident or principal place of business at 30 West 425 South (330-5), Roosevelt, Utah, 84066, hereby files an application with the Bureau of Indian Affairs, pursuant to the terms and provisions of the Act of February 5, 1948 (62 Stat. 17; 25 U.S.C. 323), and to the regulations of the Department of the Interior contained in Title 25, Code of Federal Regulations, Part 169, for the grant of a Right-of-Way for the following purposes and reasons:

To construct a Corridor R-O-W for the Ute Tribal #1-34

Across the following described Indian Lands W ½ SW 1/4 OF SECTION 35, T5S, R4W, U.S.B.&M.

Corridor R-O-W = 0.773 Ac. (Access Road & Pipeline)

Total Acreage = 0.773 Acres

Said Right-of-Way to be approximately 1,121.77 feet in length, 30 feet in width, and 0.773 Acres, and more particularly described and shown on the map of definite location to be attached and made a part hereof.

The applicant understands and hereby expressly agrees to the following stipulations:

- (a) To construct and maintain the Right-of-Way in a workmanlike manner.
- (b) To pay promptly all damages and compensation, in addition to the deposit made pursuant to 169.4 determined by the Secretary to be due the landowners and authorized users and occupants of the land on account of the survey, granting, construction and maintenance of the Right-of-Way.
- (c) To indemnify the landowners and authorized users and occupants against any liability for loss of life, personal injury and property damage arising from the construction, maintenance, occupancy or use of the lands by the applicant, his employees, contractors and their employees or subcontractors and their employees.
- (d) To restore the lands as nearly as may be possible to their original condition upon the completion of the construction to the extent compatible with the purpose for which the Right-of-Way was granted.
- (e) To clear and keep clear the lands within the Right-of-Way to the extent compatible with the purpose of the Right-of-Way; and to dispose of all vegetative and other material cut, uprooted, or otherwise accumulated during the construction and maintenance of the project.
- (f) To take soil and resource conservation and protection measures, including weed control, on the land covered by the Right-of-Way.
- (g) To do everything reasonable within its power to prevent and suppress fires on or near the lands to be occupied under the Right-of-Way.

- (h) To build and repair such roads, fences, and trails as may be destroyed or injured by construction work and to build and maintain necessary and suitable crossings for all roads and trails that intersect the works constructed, maintained, or operated under the Right-of-Way.
- (I) That upon revocation or termination of the Right-of-Way, the applicant shall, so far as is reasonably possible, restore the land to its original condition.
- (j) To at all times keep the Secretary informed of its address, and in case of corporations of the address of its principal officers.
- (k) That the applicant will not interfere with the use of the lands by or under the authority of the landowners for any purpose not inconsistent with the primary purpose for which the Right-of-Way is granted.

IN WITNESS THEREOF, BARRETT RESOURCES CORPORATION. has caused this instrument to

be executed this 10 th day of Hugust, 2000.

Box 145801
Salt Lake City, Utah 84114-5801

Re: Oil and Gas Conservation General Rules R649-3-3 Exception to Location and Siting of Wells. Ute Tribal No. 1-34

Gentlemen:

Barrett Resources is proposing to drill a development well in the Brundage Canyon Field, Duchesne County, Utah. The well is located on lands within the Uintah and Ouray Ute Indian Reservation. A copy of the Federal Application for Permit to Drill (APD) was previously submitted for your review. This APD has been submitted to the Bureau of Land Management (BLM) in Vernal and the Bureau of Indian Affairs (BIA) at Ft. Duchesne.

As shown on the attached staking plat, the proposed location for the Ute Tribal No. 1-34 falls outside of the allowed standard well spacing (R649-3-2). Barrett is requesting an exception to the spacing requirement per regulation R649-3-3. Barrett was unable to locate the proposed well within the allowed spacing "window" due to topographic constraints. The staked footages represent the closest accessible location to the spacing "window".

In accordance with R649-3-3, Barrett is providing a copy of the staking plat showing the proposed location in relation to the allowed spacing "window" and all tracts contacted by a circle with a radius of 460'. A second plat is also attached showing the actual or recently proposed location for all direct or diagonal offsetting wells. As this plat illustrates, there are no existing wells or proposed locations in the surrounding eight (8) quarter-quarter spacing units. As to the 460' radius circle, Barrett is also the owner of the adjacent SE/4 NE/4 of Section 34.

Barrett is requesting approval of this excepted location as proposed. If additional information is required, please contact Jeff Carlson at (303) 606-4063.

Sincerely

Debbie L. Wische Office Manager

DIVISION OF OIL, GAS AND MINING APPLICATION FOR PERMIT TO DRILL STATEMENT OF BASIS

Operator Name: Barrett Resources Corporation
Name & Number: Ute Tribal #1-34
API Number: 43-013-32186
Location: 1/4,1/4 NE/NE Sec. 34 T. 5S R. 4W
Geology/Ground Water:
An evaluation of geology and ground water will be done by the BLM prior to issuance of a permit
to drill.
Surface:
This well site is located on FEE surface with Tribal Minerals. A previous onsite was done on
10/10/00 at which time the landowner requested Barrett move the staking east and away from a
future cabin site. Said site was an exception spacing or alternative site and therefore moved to
accommodate landowner request and agreement. Comments by landowner were more favorable
toward present well site than previous site. Present location does fit the ridge well and provides
an adequate drill site. Barrett has submitted an exception request for moving this well outside the
window of tolerance, and is justified in doing so because of topography.
Reviewer: Dennis L. Ingram
Date: December 5, 2000

Conditions of Approval/Application for Permit to Drill:

1. A synthetic liner with a minimum thickness of 12 mils shall be properly installed and maintained in the reserve pit.

PARTICIPANTS Gene Martin (Barrett Resources); Dennis L. Ingram (DOGM) Bob Williamson (Surface owner)
REGIONAL/LOCAL SETTING & TOPOGRAPHY Located approximately 22.7 miles south of Myton by way of Sowers Canyon, then Antelope Canyon, then Right Fork of Antelope Canyon on
narrow northeast/southwest ridge .50 miles east of Nutters Canyon. Ridge slopes to northeast with adjacent canyons on east and west side of same.
SURFACE USE PLAN
CURRENT SURFACE USE: <u>Wildlife use; recreational hunting; potential</u> <u>domes</u> tic grazing.
PROPOSED SURFACE DISTURBANCE: approximately 1.3 miles of private Access into location plus 210'x 300' for location.
LOCATION OF EXISTING WELLS WITHIN A 1 MILE RADIUS: See map from GIS data base
LOCATION OF PRODUCTION FACILITIES AND PIPELINES: All production Equipment and tanks shall be sited on location; pipeline for gas sales not yet proposed.
SOURCE OF CONSTRUCTION MATERIAL: Native cut and fill or borrowed
ANCILLARY FACILITIES: None proposed.
WASTE MANAGEMENT PLAN: Submitted to DOGM with Application to Drill
ENVIRONMENTAL PARAMETERS
AFFECTED FLOODPLAINS AND/OR WETLANDS: None
FLORA/FAUNA: <u>Pinyon/juniper typical of area.</u> Elk, deer, bear, mountain lion, pheasant, raccoon, rabbit, coyote, fox, antelope.
SOIL TYPE AND CHARACTERISTICS: Tan to light brown sand and clay.
SURFACE FORMATION & CHARACTERISTICS: Uinta Formation

	EROSION/SEDIMENTA' JN/STABILITY: minor erosion some sedimentation/ No stability problems anticipated.
	PALEONTOLOGICAL POTENTIAL: None observed during onsite visit.
RESER	VE PIT
	CHARACTERISTICS: Located on northwest side in cut (Prevailing winds west/east).
	LINER REQUIREMENTS (Site Ranking Form attached): 20 points
SURFA	CE RESTORATION/RECLAMATION PLAN
	According to landowner agreement
SURFA	CE AGREEMENT: Not at present time.
CULTU	RAL RESOURCES/ARCHAEOLOGY: Arch survey was done
OTHER	OBSERVATIONS/COMMENTS

Shallow wash along access road in sw/se qtr. Requiring a low water crossing or culvert. Location and access road was surveyed and restaked at landowner request; both sites were out of window of tolerance. Legal staking of said well was north on side of canyon

thereby justifying well siting outside of window. Landowner was much happier with present staking.

ATTACHMENTS:

Photos of well staking plus trees and surface that represents land before disturbance. A letter from Barrett Resources requesting spacing relief outside the window of tolerance because of topography.

SURFACE DAMAGE AND RIGHT-OF-WAY SETTLEMENT AGREEMENT

This Agreement, made and entered into this the 18th day of December 2000, by and between Nationwide PCNETSYS, Inc., P.O. Box 1046, Greenville, TX 75403-1046, ("Surface Owner") and Barrett Resources Corporation, 1515 Arapahoe Street, Tower 3, Suite 1000, Denver, CO 80202, ("Barrett").

WITNESSETH THAT:

WHEREAS, Barrett owns undivided interests in certain oil and gas leases ("leases") covering and affecting the NE1/4 and S1/2 of Section 34, Township 5 South, Range 4 West, USM, of Duchesne County, Utah; and,

WHEREAS, such leases grant to Barrett the right and privilege of ingress, egress, exploring, drilling, mining, operating for, producing and owning oil and gas and all other products produced therewith, together with the right to make surveys on said lands, lay pipelines, establish and utilize facilities for surface or subsurface disposal of salt water, construct roads and bridges, dig canals, build power stations, telephone lines, and other structures on said lands, necessary or useful in Barrett's operations; and,

WHEREAS, Barrett, pursuant to its rights under the Leases, intends to drill the Ute Tribal #1-34 well at a legal drill-site location in the NE1/4NE1/4 of Section 34, Township 5 South, Range 4 West, USM, Duchesne County, Utah; and,

WHEREAS, Surface Owner warrants ownership to the surface of at least specific portions of the NE1/4 and the S1/2 of Section 34, Township 5 South, Range 4 West, USM, Duchesne County, Utah, and which warranted ownership is further subject to all oil, gas and other mineral rights which are reserved for the use and benefit of the owners thereof; and,

WHEREAS, Barrett has agreed to reimburse Surface Owner for actual damages and injuries to all crops, timber, fences and other improvements located on the surface which results from Barrett's operations hereunder, provided that Barrett shall not be held liable or responsible for acts of providence or occurrences beyond Barrett's control; so,

NOW, THEREFORE, in consideration of TEN (10) AND MORE DOLLARS (\$10.00) and other good and valuable consideration paid by Barrett to Surface Owner, the sufficiency of which is hereby acknowledged, said Surface Owner does hereby release Barrett, its agents, employees, licensees, permittees, successors and assigns from all claims for damages as hereinafter provided, which are occasioned by any drilling, testing, completing, producing, operating, reworking and abandoning operations conducted by Barrett at the above mentioned well, and agrees that Barrett, its agents, employees, licensees, permittees, successors and assigns, may enter upon said premises and construct and maintain such roadways, bridges, and other means of access as are necessary to enable Barrett on said location, for the purpose of erecting all necessary surface equipment, including but not limited to separators and tank battery storage facilities and other related facilities for the operating of the subject Well operated by Barrett in the Section outlined above. Such road corridor right-of-way and well site being shown on Exhibit "A" attached hereto.

For the same consideration, Surface Owner does hereby grant and convey unto Barrett, its successors and assigns, the right, at any time and from time to time, to lay, construct, reconstruct, replace, renew, operate, maintain, repair, change the size of, and remove pipes and pipelines for the transportation of oil, petroleum or any of its products, gas, water, saltwater and other substances, or any byproducts thereof, along, over, through, upon under and across the route of any such lines constructed hereunder, together with rights of ingress and egress to and from said line or lines for the purposes aforesaid. Such pipeline or pipelines to be constructed within the boundaries of the right-of-way granted herein as shown on Exhibit "A" attached hereto.

Surface Owner hereby releases Barrett, its successors and assigns, from any and all damages and claims asserted. The consideration paid by Barrett to Surface Owner is accepted by Surface Owner as full and final satisfaction for any and all damages and claims for damages to the surface which result from any of Barrett's operations and privileges granted under the above Leases. Surface Owner hereby waives the right to collect any further and additional damages that may hereafter be asserted in connection with Barrett's use of the land as further described on Exhibit "A" attached hereto and agrees to accept in lieu of any such future claims the agreed upon payment provided for in this Agreement.

Nothing herein shall alter or affect the rights of either party hereto with respect to surface use or disturbance of Surface Owner's land surrounding the drill site location.

Surface Owner and Barrett do hereby release, discharge and acquit the other from any and all liability, and shall indemnify the other against any and all claims and demands for damages, attorneys fees, injury or loss, existing now or done hereafter, to the surface of said lands or to any third parties arising out of or being the result of their or their agents, contractors, licensees, permittees, successors and assigns own activities on or use of the subject property. However, such parties' potential liability under this paragraph to the other shall be limited to the acts and/or omission of its, or its predecessors, agents, contractors, licensees, permittees, successor and assigns, and shall not include any acts and/or omissions of the other party, its agents, contractors, licensees, permittees, successors or assigns. Grantee shall reasonably maintain the subject property in order to prevent unnecessary deterioration of the surface and to keep the property in an unlittered condition.

Any topsoil which is removed by Barrett on Surface Owner's land will be stockpiled at the drillsite and will be redistributed on the drillsite upon completion of all operations and the land reseeded with grasses and/or native plants by Barrett. All mud pits will be filled and material and debris will be removed from the drill site upon completion of operations. Barrett shall remove from the lands covered hereby within ninety (90) days after the plugging and abandonment of the Ute Tribal #1-34 well, any or all structures, pipes, equipment and other facilities placed on, over, under, through and across any lands covered hereby, excepting fences, culverts, and other land improvements required by the Surface Owner, and title thereto shall be vested in Barrett at all times, and shall in no event be considered or construed as fixtures thereto.

Barrett shall provide to Surface Owner, free of charge, copies of all mud and electric logs that are conducted on the Ute Tribal #1-34 well. Such log copies shall cover the interval from the surface of the ground to the top of the Green River formation.

Barrett shall install a cattle guard with a locking gate at the point where Barrett enters upon Surface Owner's land. Such point of entry being shown on the attached Exhibit "A".

Barrett shall install a fence, with locking gate, around the wellsite and related mud pits. Such fence to be of "hog wire" and barbed wire construction.

Barrett shall cut all trees, living and dead, that are removed from the wellsite and road corridor right-of-way into twenty-four inch (24") lengths and shall stack such lengths of wood along the side of the road corridor right-of-way and wellsite.

This Agreement shall inure to the benefit of the parties hereto, their heirs, successors and assigns and shall be a burden running with the land.

This Agreement may be executed in any number of counterparts and all such counterparts shall be deemed to constitute a single Agreement and the execution of one counterpart by any party hereto shall have the same force and effect as if said party had signed all other counterparts.

All terms and conditions of this Agreement apply only to that portion of the NE1/4 and S1/2 of Section 34, Township 5 South, Range 4 West, USM, of Duchesne County, Utah described in Exhibit "A" attached hereto.

IN WITNESS WHEREOF, the parties have executed this Surface Damage Settlement Agreement effective as of the 18th day of December 2000.

Mr. Gene Martin Production Foreman – Utah Barrett Resources Corporation 30 West 425 South (330-5) Roosevelt, Utah 84066

Dear Gene:

I look forward to our meeting on Tuesday December 5, 2000. I feel confident we will be able to reach a final settlement, which will allow Barrett to proceed with drilling plans. I thought it might be helpful for me to restate my position on the unresolved issues. If some further consideration is given to these matters before we talk on December 5th, I think we can be more productive.

The following are items that will need to be resolved:

Monetary compensation:

- 1. Your new proposal for compensation based on total acreage disturbed.
- 2. The annual compensation for use of the access road.

Other Consideration:

- 1. Well logs and other information gathered during drilling will be provided in order to evaluate the feasibility of our drilling a water well in the area.
- 2. A locking gate, with cattle guard, is to be constructed at the section line to control all access to Section 34 via the proposed road/right-of-way.
- 3. The drill site is to be fenced in such a way as to prevent children and livestock from entering.
- 4. As the access road is cut and for all areas to be cleared, all trees (dead or living) that are to be removed will be cut into 24 inch lengths and stacked at the edge of the right-of-way. All brush not suitable for cutting into firewood lengths will also be stacked to facilitate our later removal.
- 5. Should the well be capped and abandoned the site must be restored to its natural state with in ninety (90) days. This will include the removal of all structures, pipes, equipment and other facilities unless other wise agreed to in writing. A bond, sufficient to cover the cost of restoration, must be posted to insure that this is done.
- All agreements must be in writing and be written in such away as to be binding on Barrett, its successors and assigns.

It would also be very helpful if you could discuss the possibility of a right-of-way with the Ute Tribe before our meeting. The status of that short portion of the access road that runs from the county road to the section line, on tribal land, is critical.

I appreciate your candor and willingness to negotiate in good faith. I feel certain we can reach an agreement at our next meeting.

Cordially,

Robert L. Williamson President, CEO

BARRETT RESOURCES CORPORATION December 4, 2000

State of Utah Department of Natural Resources Division of Oil, Gas, and Mining 1594 West North Temple, Suite 1210 Box 145801 Salt Lake City, Utah 84114-5801

Re: Oil and Gas Conservation General Rules R649-3-3 Exception to Location and Siting of Wells. Ute Tribal No. 1-34 – **Revised (Location moved)**

Gentlemen:

Barrett Resources is proposing to drill a development well in the Brundage Canyon Field, Duchesne County, Utah. The well is located on lands within the Uintah and Ouray Ute Indian Reservation. A copy of the Federal Application for Permit to Drill (APD) is attached for your review. This APD has been submitted to the Bureau of Land Management (BLM) in Vernal and the Bureau of Indian Affairs (BIA) at Ft. Duchesne.

As shown on the attached staking plat, the proposed location for the Ute Tribal No. 1-34 falls outside of the allowed standard well spacing (R649-3-2). Barrett is requesting an exception to the spacing requirement per regulation R649-3-3. Barrett was unable to locate the proposed well within the allowed spacing "window" in the NE/4 NE/4 due to topographic constraints. The staked footages represent the closest accessible location to either of the spacing "windows".

In accordance with R649-3-3, Barrett is providing a copy of the staking plat showing the proposed location in relation to the allowed spacing "window" and all tracts contacted by a circle with a radius of 460'. A second plat is also attached showing the actual or recently proposed location for all direct or diagonal offsetting wells. As to the 460' radius circle, Barrett is also the owner of the adjacent SE/4 NE/4 of Section 34.

Barrett is requesting approval of this excepted location as proposed. If additional information is required, please contact Jeff Carlson at (303) 606-4063.

Re:

Ute Tribal 1-34 Well, 1150' FNL, 644' FEL, NE NE, Sec. 34, T. 5 South, R. 4 West,

Duchesne County, Utah

Gentlemen:

Pursuant to the provisions and requirements of Utah Code Ann.§ 40-6-1 et seq., Utah Administrative Code R649-3-1 et seq., and the attached Conditions of Approval, approval to drill the referenced well is granted.

Appropriate information has been submitted to DOGM and administrative approval of the requested exception location is hereby granted.

This approval shall expire one year from the above date unless substantial and continuous operation is underway, or a request for extension is made prior to the expiration date. The API identification number assigned to this well is 43-013-32186.

Sincerely,

John R. Baza

Associate Director

Location: NE NE	Sec. 34	T. 5 South	R. 4 West						

Conditions of Approval

1. General

Compliance with the requirements of Utah Admin. R. 649-1 et seq., the Oil and Gas Conservation General Rules, and the applicable terms and provisions of the approved Application for permit to drill.

2. Notification Requirements

Notify the Division within 24 hours of spudding the well.

Contact Carol Daniels at (801) 538-5284.

Notify the Division prior to commencing operations to plug and abandon the well.

Contact Dan Jarvis at (801) 538-5338

3. Reporting Requirements

All required reports, forms and submittals will be promptly filed with the Division, including but not limited to the Entity Action Form (Form 6), Report of Water Encountered During Drilling (Form 7), Weekly Progress Reports for drilling and completion operations, and Sundry Notices and Reports on Wells requesting approval of change of plans or other operational actions.

- 4. State approval of this well does not supersede the required federal approval, which must be obtained prior to drilling.
- 5. Compliance with the Conditions of Approval/Application for Permit to Drill outlined in the Statement of Basis. (Copy Attached)

EPA'S LIST OF NONEXEMPT EXPLORATION AND PRODUCTION WASTES

While the following wastes are nonexempt, they are not necessarily hazardous.

Unused fracturing fluids or acids

Gas plant cooling tower cleaning wastes

Painting wastes

Oil and gas service company wastes, such as empty drums, drum rinsate, vacuum truck rinsate, sandblast media, painting wastes, spend solvents, spilled chemicals, and waste acids

Vacuum truck and drum rinsate from trucks and drums, transporting or containing nonexempt waste

Refinery wastes

Liquid and solid wastes generated by crude oil and tank bottom reclaimers

Used equipment lubrication oils

Waste compressor oil, filters, and blowdown

Used hydraulic fluids

Waste solvents

Waste in transportation pipeline-related pits

Caustic or acid cleaners

Boiler cleaning wastes

Boiler refractory bricks

Incinerator ash

Laboratory wastes

Sanitary wastes

Pesticide wastes

Radioactive tracer wastes

Drums, insulation and miscellaneous solids.

SURFACE USE PROGRAM CONDITIONS OF APPROVAL (COAs)

Thirty (30) foot corridor rights-of-way shall be granted for the pipeline and new access road corridor that is on Ute Tribal Lands.

Barrett Resources will assure the Ute Tribe that any/all contractors and subcontractors have acquired a current Tribal Business License and have "Current Access Permits" prior to construction. Contractors and subcontractors will have these permits in vehicles at all times.

All Barrett Employees and/or authorized personnel (subcontractors) in the field will have approved applicable APDs and/or ROW permits/authorizations on their person(s) during all phases of construction.

The Ute Tribe Energy & Mineral Department is to be notified in writing 48 hours in advance of any construction activity. The Ute Tribal office days are Monday through Thursday. A Tribal Technician is to routinely monitor construction. For all monitoring that is to exceed Tribal Technician regular working hours, Barrett Resources shall make arrangements with the Ute Energy & Minerals Department.

For any deviations of submitted APDs and ROW applications, Barrett will notify the Ute Tribe and Bureau of Indian Affairs in writing and will receive written authorization of such changes. Without authorization, Barrett Resources understands they will be subject to fines and penalties.

Barrett Resources will implement the "Safety and Emergency Plan"; and Barrett Resources Safety Director will ensure its compliance.

All vehicular traffic, personnel movement, construction, and restoration activities shall be confined to the areas examined and approved, and to the existing roadways and/or evaluated access routes.

All personnel shall refrain from collecting artifacts, any paleontological fossils, and from disturbing any significant cultural resources in the area.

The personnel from the Ute Tribe Energy & Mineral Department shall be consulted if cultural remains (including paleontology fossils) from subsurface deposits are exposed or identified during construction. All construction will cease. Prior to commencing constructing in the area where cultural resources are exposed, the operator must obtain authorization from the BIA and the Ute Tribal Department of Cultural Rights and Protection.

Upon completion of construction of the rights-of-way, Barrett will notify the Ute Tribe Energy & Minerals Resources Department. This will be done so that a Tribal Technician can verify Affidavit of Completions.

Before the site is abandoned, the company will be required to restore the well site and ROWs to near their original state. The disturbed areas will be reseeded with desirable perennial vegetation.

COAs Page 5 of 5 Well No.: Ute Tribal 1-34

Noxious weeds will be controlled on the well site and rights-of-way. If noxious weeds spread from the project area onto adjoining land, the company will also be responsible for their control.

Soil erosion will be mitigated by reseeding all disturbed areas.

Reserve pits will be lined with impervious synthetic liners. Prior to backfilling the reserve pit, all fluids will be pumped from the pit into trucks and hauled to approved disposal sites. When the pits are backfilled, the surplus oil and mud, etc., will be buried a minimum depth of 3.0 feet below the surface of the soil.

A closed production system will be used. Production fluids will be contained in leak proof tanks. All production fluids will be disposed of at approved disposal sites. Production water, oil, and other by-products will not be applied to roads or well pads for the control of dust or weeds. The indiscriminate dumping of production fluids and other oil field by-products on roads, wellsites, or other areas will not be allowed.

A 30 foot wide corridor right-of-way will be used for the access road and pipeline corridor. The constructed travel width shall be limited to 18 feet, except it may be wider where sharp curves or intersections with other roads are required.

Surface pipelines will be constructed to lay on the soil surface, and the ROW for the pipeline will not be bladed or cleared of vegetation without site specific authorization from BIA and Ute Tribe Energy & Minerals.

Where surface pipelines do not parallel roads but cross country between stations, the line shall either be welded in place at a welding station located at the wellsite or on roads near the flowline right-of-way and then dragged into place with a suitable piece of equipment so it will not destroy the natural vegetation. If the flowline doesn't follow existing and APD proposed new access roads, then traffic shall be restricted along pipeline ROWs so that they will not be used as an access road.

Buried flowlines shall be a minimum of three feet below the surface. After the construction of the pipeline is completed, the disturbed area of the ROW shall be contoured to blend into the natural landscape; and it shall be reseeded with desirable vegetation. Between September 15 and November 1 of the year following pipeline construction of the buried line, all disturbed areas shall be reseeded with perennial vegetation according to BIA or to Ute Tribe specifications.

Barrett Resources employees, representatives, and subcontractors shall not carry firearms on their person or in their vehicles while working on the Uintah and Ouray Indian Reservation.

Oil and Gas

:

Name Change Recognized

Acceptable evidence has been received in this office concerning the name change of <u>Barrett Resources Corporation</u> into <u>Williams Production RMT Company</u> with <u>Williams Production RMT Company</u> being the surviving entity.

For our purposes, the name change is recognized effective August 2, 2001.

The oil and gas lease files identified on the enclosed exhibit have been noted as to the name change. The exhibit was compiled from a list of leases obtained from our computer program. We have not abstracted the lease files to determine if the entities affected by this name change hold an interest in the leases identified nor have we attempted to identify leases where the entities are the operator on the ground maintaining no vested recorded title or operating rights interests. We will be notifying the Minerals Management Service and all applicable Bureau of Land Management offices of the change by a copy of this notice. If additional documentation for changes of operator are required by our Field Offices, you will be contacted by them.

If you identify additional leases in which the entities maintain an interest, please contact this office and we will appropriately document those files with a copy of this Notice.

Due to the name change, the name of the principal/obligor on the bond is required to be changed from <u>Barrett Resources Corporation</u> to <u>Williams Production RMT Company</u>. You may accomplish this either by consent of surety rider on the original bond or a rider to the original bond. The bonds are held in New Mexico.

Williams Production RMT Company

Attn: Fritts Rosenberger 1515 Arapahoe St., T3-1000

Denver, CO 80202

Dear Mr. Rosenberger:

We are in receipt of the corporate documentation for the merger of Barrett Resources Corporation with and into Williams Production RMT Company.

All documents appear to be in order, and the approval is hereby authorized to change all records, including change of operator of certain oil and gas wells, Rights-of-Way, Communitization Agreements, Oil and Gas Leases; and Exploration and Development Agreements from Barrett Resources Corporation with and into Williams Production RMT Company.

Approval of this name change is the date of this letter, but effective on August 2, 2001. If you have any questions, please do not hesitate to contact this office.

Respectfully.

Acting Superintendent

Jim Shampson 801-359-3940 Juan Pat Dalwarowicz

CERTIFICATE OF MERGER
OF
BARRETT RESOURCES CORPORATION
INTO
RESOURCES ACQUISITION CORP.

Parsumt to Section 251 of the General Corporation Law of the State of Dalaware

Resources Acquisition Corp., a Delaware corporation ("Acquisition"), pursuant to Section 251 of the General Corporation Law of the State of Delaware (the "DGCL"), hereby certifies as follows:

FIRST; The name and state of incorporation of each of the countituent corporations to the merger are as follows:

Berrett Resources Corporation

Delaware

Resources Acquisition Corp.

Delaware

SECOND: An Agreement and Plan of Merger (the "Merger Agreement"), dated as of May 7, 2001, by and among The Williams Companies, Inc., Acquisition and Berrett Resources Corporation ("Barrett") has been approved, adopted, certified, executed and acknowledged by each of the constituent corporations in accordance with Section 251 of the DGCL.

THIRD: Acquisition shall be the corporation surviving the merger (the "Surviving Corporation").

FOURTH: The Cartificate of Incorporation of Acquisition shall be the Certificate of Incorporation of the Surviving Corporation until thereafter changed or amended as provided therein or by applicable law; provided, however, that the following changes to the Certificate of Incorporation of Acquisition shall be effected as a result of the merger:

SKADDEN ARPS + D

ND. 184 **D**23

P.4/5

1. Article FIRST shall be amended and restated to read as follows:

"The name of the corporation is Williams Production RMT Company."; and

2. Article SIXTH, paragraph 4, shall be amended and restated to read se follows:

"No director shall be personally liable to the Corporation or any of its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconductor a knowing violation of law, (iii) purmums to Section 174 of the GCL or (iv) for any transaction from which the director derived an improper personal benefit. If the GCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of directors of the Corporation shall be aluninated or limited to the fullest extent permitted by the GCL, as so amended. Any repeal or modification of this Article SIXTH by the stockholders of the Corporation shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification with respect to acts or omissions occurring prior to such repeal or modification.

3. The following paragraph shall be added to Article Sixth as paragraph 6 thereto:

"The Corporation shall fully bonor and abide by the provisions set forth in Section 7.9 of the Agreement and Plan of Merger dated as of May 7, 2001 (the "Merger Agreement") by and among the The Williams Companies, Inc., the Corporation and Berrett Resources Corporation. Any repeal or modification of this paragraph 6 of this Article SIXTH by the studeholders of the Corporation shall not adversely affect any rights or protections afforded to the Indomnified Persons (as defined in the Merger Agreement) pursuant to this paragraph and Section 7.9 of the Merger Agreement."

FIFTH: The executed Merger Agreement is on file at the office of the Surviving Corporation, 1515 Arapahoe Street, Tower 3 Suite 1000, Denver, Colorado 80202.
